## Personal Details

**Date of Birth:** 14<sup>th</sup> July 2001

**Languages Known:** English, Hindi

**Address:** Indore, Madhya Pradesh

## Profile Summary

- A full stack developer with high **problem-solving skills** who develops **complex projects**.
- I have proficiency in building projects which can be used by a wide range of people.
- Identified visual inaccuracies in the existing college website and **improved** the UI.
- Possesses **in-depth knowledge of multiple technology** which in turn contributes to an efficient development stage of products.

## Academic Projects

### Study Notion

October 2023 – May 2024

**Tools:** React, Node.js, MongoDB, Postman, Cloudinary

An e-learning full-stack project helps student learn from various courses. Instructor can upload their courses and lectures and keep track of the overall performance of each course through this application.

#### Features:

- User Authentication: Study Notion provides secure user registration and authentication using JWT (JSON Web Tokens). Users can sign up, log in, and manage their profiles with ease.
- Progress Tracking: Study Notion allows students to track their progress in enrolled courses. They can view completed lessons, scores on quizzes and assignments, and overall course progress.
- Payment Integration: Study Notion integrates with Razorpay for payment processing. Users can make secure payments for course enrollment and other services using various payment methods supported by Razorpay.
- Instructor Dashboard: Instructors have access to a comprehensive dashboard to view information about their courses, students, and income. Instructors can monitor the total number of students enrolled in each course, track "courses performance" and view their income generated from course sales.

### Portfolio Website

July 2022 – January 2023

**Tools:** React, Node.js, MongoDB, Postman

An online representation of work designed to support the growth and communication of both personal and organizational achievements.

#### Features:

- High-quality images and short videos through use of cloud with the help of media-server.
- Contact information, Detailed information, Relevant social media accounts, FAQ section.
- Link: <https://chirag9752.github.io/Portfolio-Main/>

## Work Experience

- Frontend Development: Implemented various UI changes and added new features using React, enhancing user experience and interface functionality
- Backend Development: Developed and maintained APIs and routes using Node.js, ensuring robust and efficient server-side operations.
- Full-Stack Development: Gained comprehensive experience in full-stack development, encompassing both client-side and server-side tasks, contributing to end-to-end project development.
- Skills and Proficiency: Improved skills in development, debugging, and overall software engineering practices, facilitating efficient problem-solving and project management.
